Wood design used at home are the ones that remind us how close to nature each one of us are. They came from big trees that were once part of mother nature and now belong to us, the homeowners.

Today, we will be seeing homes that use a part of those trees in their homes.

An essential part of the house that definitely makes great impact in making a house look more homey and livable!

Stone design created to combine the innate perfection of natural stone with the latest technologies and styles. Sophisticated and modern identity for interior and exterior spaces that experience different use.

Multiple stone inspired colours that exhibit strong shade variation that capture the essence of the natural aesthetic.

A vertical photograph of a coastal landscape. The foreground and middle ground are dominated by dark, layered rock formations, likely sedimentary or metamorphic, with distinct horizontal and diagonal strata. A calm body of water, possibly a tide pool or a narrow inlet, reflects the sky and the surrounding rocks. The background shows a hazy sea meeting a cloudy sky. The overall mood is serene and natural.

Above the bar, multiple shelves are filled with various bottles of liquor. The bar's back wall features a decorative metal lattice screen. In the background, a brick wall is illuminated by a grid of small, warm-toned lights, with the name 'ROJO OJO' displayed in a sign. The floor is a mix of light wood and large, colorful patterned tiles. To the right, there are tables with orange and colorful patterned chairs. ## APPLICATION TECHNIQUES FOR RECTANGULAR TILES

Tiles are modular pieces that can be arranged to create any pattern you wish. The selection of shapes, sizes, colour and finishings allow for design possibilities that are only limited by your imagination. The common combinations typically are :

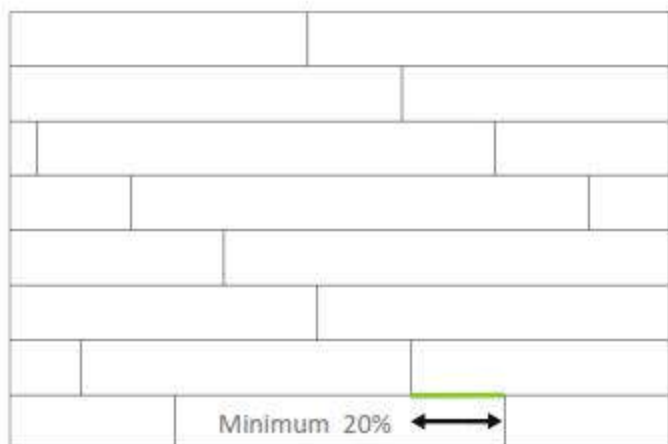

1. Different colours with the same size, shape and finishing
2. Different sizes or shaped tiles with the same colour and finishing
3. Different surface textures with the same colour
3. Mural designs using mosaic tiles
4. Grout gap recommended 3mm
5. Deviation of size in each batch is 3mm for 150mm x 900mm tiles .

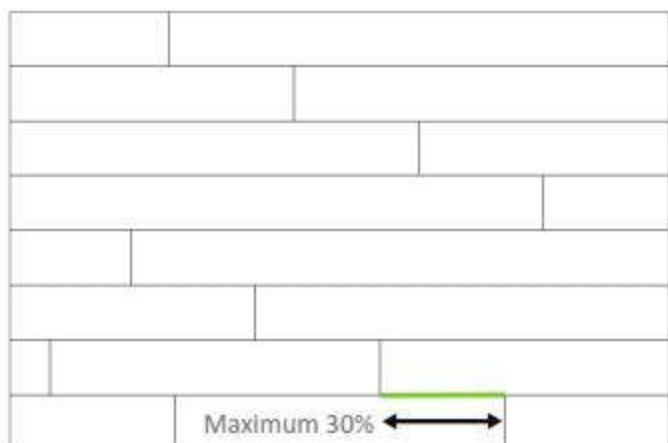

### RECOMMENDED

*SUITABLE FOR ROOMS THAT HAVE MANY CURVES OR CORNERS. AVOIDS WASTAGE OF TILES AND MODERATES FOR FUTURE REPLACEMENTS. THE OVERLAY SPACE CAN BE A MIX OF BETWEEN 20% - 30%.*

*RECOMMENDED MINIMUM SPACE BETWEEN TILES ARE 20%.*

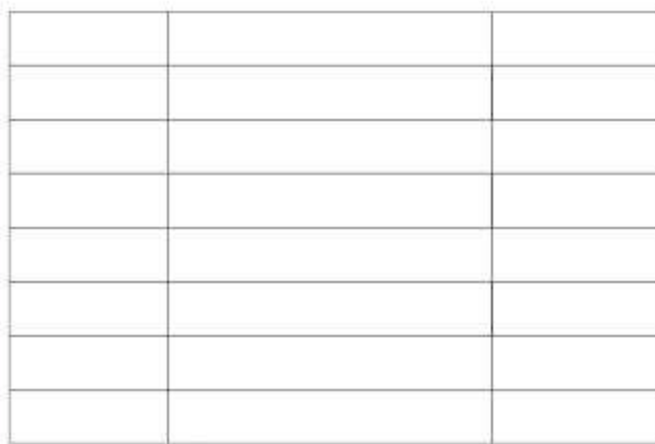

*RECOMMENDED MAXIMUM SPACE BETWEEN TILES ARE 30%.*

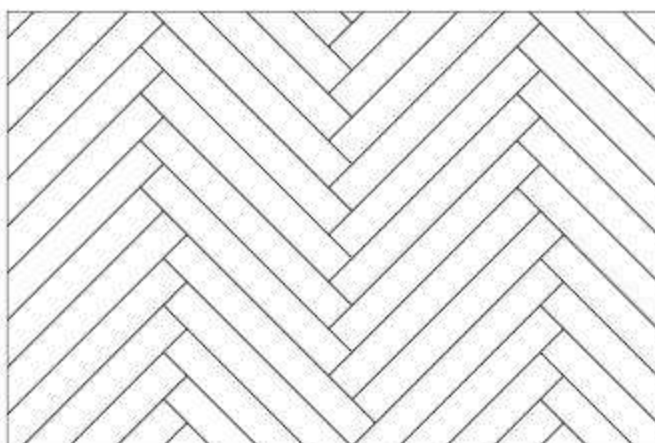

### NOT RECOMMENDED

*SOME PRECISION REQUIRED IN LAYING OUT THE TILES TO MAINTAIN ACCURATE SPACING. AS A VERY COMMON PATTERN, IT MAY LACK VISUAL INTEREST. NOT RECOMMENDED IF THE SPACE BETWEEN TILES ARE OVER 50%.*

*TRANSMITS CRACKS EASIER THAN IF TILE WERE STAGGERED. A CRACK THAT DEVELOPS IN A SEAM WILL OFTEN CONTINUE TO NEIGHBOURING SEAMS AND OTHER THAN THAT IT LACKS VISUAL INTEREST.*

*CAN BE CHALLENGING TO KEEP THE TILE PATTERN STRAIGHT. PATTERN MAY BE TOO COMPLICATED AND "BUSY" FOR LARGE ROOMS.*

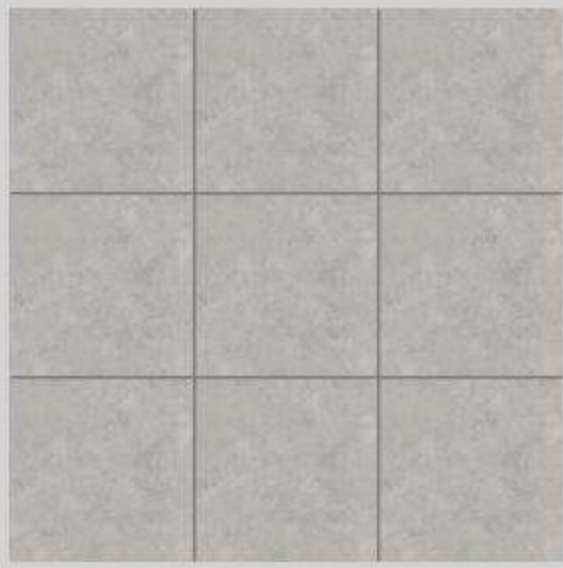

## SHADE AND TONALITIES

Shade variation is inherent in all tile product. Shade and texture will vary significantly from piece to piece to within production runs. V1 shade variation has little or no change from piece to piece where V4 will have a large variety of colours and/ or texture changes. Always check at least one carton of tiles (rather than just one piece of tile) at a distance of about 1 meter to verify a harmonious colours shade before lay.

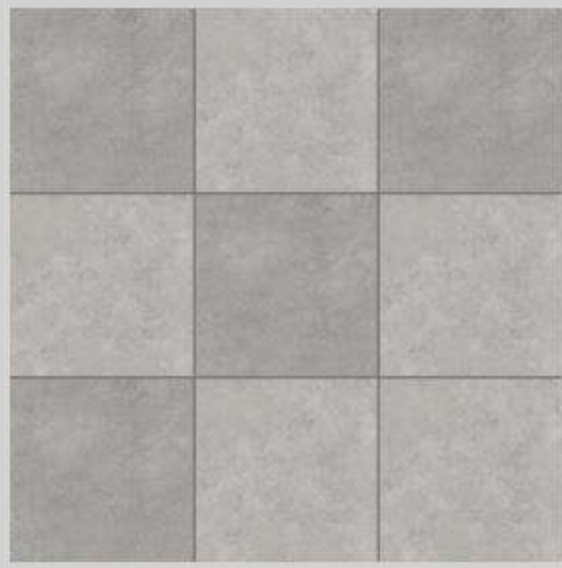

### **V1** **UNIFORM APPEARANCE**

TILES HAVE A HARMONIOUS SHADE AND TEXTURE WITH LOW, MINIMAL VARIATION

### **V2** **MODERATE VARIATION**

TILES HAVE A MODERATE VARIATION IN SHADE AND TEXTURE

### **V3** **SLIGHT VARIATION**

TILES HAVE A SLIGHT VARIATION IN SHADE AND TEXTURE

### **V4** **SUBSTANTIAL VARIATION**

TILES HAVE A RANDOM OR SUBSTANTIAL VARIATION IN SHADE AND TEXTURE, TO EXTENT THAT ANY PIECE OF TILE MAY BE COMPLETELY DIFFERENT IN SHADE TO ANOTHER TILE
